Dayananda Sagar Academy of Technology & Mgmt,

B.E CSE — 8.3 cgpa (current)

2019 - 2023

Member of coding club & google DSC.

CERTIFICATES

- [Google Go Specialization](#)
- [JP Morgan & Co. Virtual Software Engg. experience](#)

EXPERIENCE

Ewar Games — Software Engineering Intern

July 2020 - July 2021

A react and react native developer working with the frontend team on the core app, website, admin dashboards and organizing hackathons.

- Worked on the Ewar app's revamped app release from scratch, with new features with react native, firebase and graphql
- Added new features and maintained the company's admin dashboard.
- Created the company's landing website using react.

Ewar Games — Marketing Intern

May 2020 - July 2020

Assisted with capturing and analyzing social media metrics and tournaments. Managed the company's discord server by developing a discord bot in python to manage it.

PROJECTS

Arcadia Typerace — Go, Vue, Websockets

A website to challenge your friends to a room based typing race.

Breaddit — React, Redux, Typescript, Go, Gin

A reddit clone with a community of bakers, where you can share and interact about breads through your posts and comments.

Decentralized KickStarter — Next.js, Typescript, Solidity

A decentralized funding app for your ideas, built on a contribute-approve model, to reduce scams.

bootstrap-discord-bot — Python, Discord.py, PyPI

An opinionated cli-tool to bootstrap your discord bot code, with 15k downloads.

react-hide-on-scroll — React, Typescript, NPM

A react component library to hide/show elements based on scroll, with 5k downloads.
